## GENERAL LIST

**ALETA** 520 class — 85 days. Nice light orange which will open 5-6 blooms on nice spike. Large 75c, Medium 60c.

**AUTUMN FIRE** 436 class — 90 days. As the name implies, a large-flowered orange-red and yellow. Not an early gladiolus, but it will grow its 9½ by 24 inches of solid bloom without an opening in it, on a stem heavy enough to carry this mass of autumn fire at a season when flame color seems most beautiful. Shorter days dim the coloring of earlier flowering gladiolus, but AUTUMN FIRE only intensifies its beauty. Large 75c, Medium 60c.

**ARCTIC SNOW** 300 class — 85 days. Tall pure white. Opens 7-8 medium size blooms at once. Large 15c, Medium 10c.

**AUNT DAISY** 433 class — 80 days. Delicate pale vermillion with deeper blotch on rich cream throat; a lovely blend of color; opens up to 8 large blooms on a tall spike of 20 or more buds. Large 15c, Medium 10c.

**BAGDAD** 580 class — 85 days. Late tall growing smoky. Large 10c, Medium 8c.

**BETTY'S CHOICE** class 362 — 100 days. A nicely ruffled rosy mauve with cream blotch. Petals edged cream. Will open 6-8 on long flowerheads. A vigorous, healthy grower. We consider this a very beautiful variety, excellent for floral work. Large 50c, Medium 35c.

**BIG TOP** 541 class — 75 days. The color is medium to light pink with an attractive carmine feather in the throat. The huge florets are of good texture with petals somewhat creased in the center. It is one of the top giants in growth of plant, florets and foliage. It makes an excellent commercial from all size bulbs, opening perfectly. Large 15c, Medium 10c.

**BLAZE** 450 class — 100 days. Very aptly named light red that really blazes in the glad patch. Large 10c, Medium 8c.

**BLUET** class 378 — 80 days. Tall straight blue with white throat. A basket on display at Ohio State Fair sold practically all my stock of this variety. We have a few bulbs left to go to the first orders. Large 10c, Medium 8c.

**ELIZABETH THE QUEEN** 566 class — 85 days. A truly gracious flower of clear soft rose lavender with small carmine feathering in throat; the heavily waved and fril'ed florets have a rich satiny sheen and are of excellent substance. Large 15c, Medium 10c.
